

# Beveling Equipment

## Cutting & Beveling Machine Band Type

**For pipe sizes from 6" (168mm) to 60" (1676mm)**  
Flexible bands conform to out of round pipe walls, eliminating the need for compensating devices. The torch carrier crawler follows the pipe wall arc, keeping the torch at a pre-set stand off distance all the way around the pipe. Torch sold separately.

### SPECIFICATIONS

MODEL	SIZE (In./mm)	SHIPPING WEIGHT (lbs./kg)
Manual Crawler 9' Flex Drive Cable	10½ X 8½ X 6 (267X216X152)	26/12
Manual Crawler 14' Flex Drive Cable	10½ X 8½ X 6 (267X216X152)	30/14
Motorized Crawler 110vac 50-60 Hz	17½ X 8½ X 6 (445X216X152)	26/12
Motorized Crawler 230vac 50-60 Hz	17½ X 8½ X 6 (445X216X152)	26/12
Motorized Crawler 90vdc	17½ X 8½ X 6 (445X216X152)	26/12
Pneumatic Driven Crawler	17½ X 8½ X 6 (445X216X152)	26/12

### Cutting & Beveling Machine—Band Type For Pipe Sizes 6" to 60"

#### Features:

- Rugged design provides accuracy and long life.
- One transmission unit, with cutting torch and appropriate band, cuts any size pipe.
- Compact size allows use in minimum space. 9" (229 mm) clearance allows small bell holes.
- Standard 9 ft. (2.7m) long flexible drive shaft allows operator to avoid heat and molten metal while cutting.
- Cuts "out-of-round" pipes without special adapters.
- Requires very little maintenance.
