

Pipe Carrier

Challenger PC30

(Challenger Pipe Carrier shown with optional Hiab knuckleboom crane)

Cat Challenger Series Tractor

Caterpillar Mobil-Track System (MTD) *The best of wheels and tracks!*

- More traction and stability than a wheel machine, yet able to travel on paved roads.
- Differential steering — provides continuous power to both track belts, even in a turn.
- Power shift transmission, with inching foot pedal, 10 forward speeds and two in reverse.
- Extremely maneuverable—can turn in its own length.
- Very mobile—capable of speeds up to 18 mph.
- Economical—rubber belts outlast tires.

Specifications—Tractor

Horsepower	285
Track Gauge	85 inches
Belt Width	
Standard	24.5 inches
Optional	20.5, 27.5, 35.5 inches
Length of track on ground	8 ft. 11 in.

Challenger Services Pipecarrier

Designed specifically for the Cat Challenger Series Tractor

- Racks are removable for travel empty.
- Cradles are sized for each pipe diameter.
- A hydraulic knuckleboom crane can be installed behind the cab (as an option), to make the PC30 self loading and unloading.
- Entire pipe carrier package (excluding the optional hydraulic boom) is easily installed and removed.
- Capacity—Joints of 40 foot pipe (limited to 30,000 pounds total payload).
- Loaded ground pressure 16.5 PSI
Empty ground pressure 8.8 PSI (with 35.5 inch belts)

12-20 inch diameter—6 joints in bottom row (up to 12 joints total).

24-36 inch diameter—4 joints in bottom row (up to 6 joints total).
